SITE SAFETY INSPECTION

Group card: keep this in the middle of your table

SCAN WITH YOUR PHONE CAMERA

1. **Scan the QR and choose your team (A, B or C)**
2. **Tap Start. Rotate and zoom the 3D site with your fingers**
3. **Tap a hazard to see its grid cell, then Flag it**
4. **Tap "View on my table (AR)": place the site once on the table, then walk around and look inside. Do not touch the screen**
5. **Back on the page, open Notes and log every hazard you found**

Scoring (your instructor checks at the end)

+10 for each hazard you find (correct grid cell)

+5 if you also pick the correct hazard type

-5 for each false flag (something done correctly)

16 hazards on site. Grid: columns A-F, rows 1-6.

Print on A4. No marker needed.
