SITE SAFETY INSPECTION

Group table card: keep this in the middle of your table

SCAN WITH YOUR PHONE CAMERA

1. **Scan the QR code, choose your team (A, B or C)**
2. **Tap Start AR, allow camera and motion**
3. **Aim your phone at the table, pick the size, tap "Place here". The site stays fixed there**
4. **Slide a finger to rotate it. Turn your phone to look around**
5. **Tap a hazard, then "Flag it". Log it in Notes with the grid cell**

Scoring (your instructor checks at the end)

+10 for each hazard you find (correct grid cell)

+5 if you also pick the correct hazard type

-5 for each false flag (something that is done correctly)

There are 16 hazards on the site. Grid: columns A-F, rows 1-6.

Print on A4. No marker needed. Good light helps the camera picture.
